

“PREVENTION IS BETTER THAN CURE”

WORLD CHAMPIONSHIP WINNING MOISTURE CONTROL

Played by the 2015 World Pipe Band Champions Shotts & Dykehead

“As soon as I tried the Trap Dri in my pipes, the difference this simple little device made was immediately clear. Without a doubt, it increases the playing time I can get from my pipes before moisture becomes an issue. And it does this without the need for additional silica gel style granules, which I feel can remove too much moisture from inside the bag and also need changed or dried regularly. The Trap Dri is a small, simple and yet ingenious device that does everything I’d hope for. I highly recommend it.”

Ryan Canning
